Message from the Head

Chères familles.

Welcome - or welcome back - to Jeannine Manuel School! We are thrilled to begin the school year under our new name and to welcome our new students, families, and staff to our growing community. Although we have changed our name, our mission and educational vision remain the same and we are all very much looking forward to another exciting year where we will help our students Think, Dare, Share & Care. This year is also a special year for the Jeannine

Manuel family of schools as our Parisian sister school marks its 70th anniversary! Seventy years ago, École Jeannine Manuel opened its doors to just 10 students, and today, over 4,000 students across our schools are part of this shared journey. Leaving aside these exceptional events and

milestones, the start of the academic year has

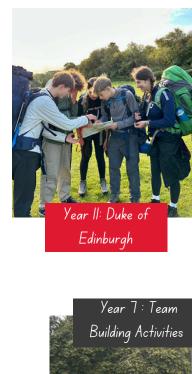

already been full of wonderful projects, and I hope that you will enjoy reading about them here. Bonne lecture,

Pauline Prévot

Maths Training & Planning

... that our founder Jeannine Manuel had a special connection with London? She joined the Resistance in 1940 and the Free French in London in that same year. This experience convinced her at the end of WW2 that "the more one knows, the less one fears" a sentiment which took action in the form of her creation of our sister school in Paris in 1954, in order to promote international understanding through a bilingual education.
